

TYRE TYPES AVAILABLE

BU66

BU66's tread formulation is specially designed to ensure excellent rolling resistance as well as a stronger apex to prevent any damage to the bead.

BH15

Excellent handling, superior comfort, high-speed stability and low running noise provide a great driving experience. The tread is composed of a silicon compound formulation that not only effectively reduces rolling resistance, saves energy and protects the environment with low carbon emissions, but also has good grip to provide greater handling security.

BC86

High performance SUV and light truck tyre with excellent durability and handling efficiency.

L301

Specially designed pattern for vans and minibuses that offers outstanding handling on wet surfaces, as well as excellent high speed durability.

WARRANTY TERMS & CONDITIONS

Your Blacklion tyre has been produced to the highest standards, consequently we are able to extend the warranty on your Blacklion tyre purchase

If your Blacklion tyre develops a fault, including accidental damage during normal driving, your dealer will fit a new Blacklion tyre, charging only for the tread used. This warranty is valid for the life of the tyre until it reaches a tread depth of 2mm.

Terms and Conditions

- This warranty applies to Blacklion tyres and will be honored only at an authorised Blacklion dealership for the period or ownership by the original purchaser or when the tyre tread depth reached 2mm.
- This warranty is valid provided there is a minimum tread depth of 2mm
- All claims must be accompanied by an invoice and the fully completed warranty certificate issued at the time of purchase.
- You will be charged only for the tread been used but the warranty contribution must be used against the purchase of a new Blacklion car tyre.
- The tyre must have been used for normal road use. Off road use, racing, deliberate or malicious damage will invalidate your warranty. This warranty does not cover tyres used on taxis cabs or vehicles used for that purpose.
- The extended warranty is limited to cars and car derived vans and expressly excludes vans, pickups and car derived campers.
- Runflat tyres are not included under this guarantee
- The remaining tread depth of the tyre will be judged from taking three tread depth readings around the center of the tyre, none of which must be below 2mm.
- Tyres with suspected manufacturing faults or tyres with irreparable faults will be replaced at the rates in the tread depth charts below.
- The warranty applies to the original purchaser and cannot be transferred. The warranty does not cover uneven tyre wear or rapid wear caused by vehicle defects. This warranty is also invalid if it is removed or repaired by any other individual.
- This warranty only covers tyres equivalent or greater than the OE recommended speed and load index.
- Refitting, new valves and balance is chargeable
- This warranty is in addition to your statutory rights which are unaffected

| REMAINING TREAD DEPTH | 7mm + | 6mm | 5mm | 4mm | 3mm | 2mm | 1.6mm |
|-----------------------|-------|-----|-----|-----|-----|-----|-------|
| PERCENTAGE | 100% | 80% | 60% | 40% | 25% | 5% | NIL |

NB.THE MINIMUM LEGAL TREAD DEPTH IS 1.6mm
